RAID BATTLE

A layout for a Raid Battle in the Pokémon Trading Card Game. It features four card slots arranged in a 2x2 grid. The top-left and top-right slots have teal tabs with three stars (one solid, two outlined). The bottom-left slot has a blue tab with three stars (one outlined, two solid). The bottom-right slot has a purple tab with three solid stars. Each card slot is a rounded rectangle with a white top section and a bottom section filled with a black dot pattern. The slots are connected by lines: a horizontal line between the top two, a horizontal line between the bottom two, and a vertical line between the left two. Curved lines extend from the right side of the top-right slot and the left side of the bottom-left slot, suggesting connections to other parts of the game board.
